Data from the **Greater Tulsa Association of REALTORS®**

Analysis Wrap-Up

Months Supply of Inventory (MSI) Increases

The total housing inventory at the end of September 2017 rose **22.87%** to 403 existing homes available for sale. Over the last 12 months this area has had an average of 54 closed sales per month. This represents an unsold inventory index of **7.42** MSI for this period.

Median Sale Prices Going Up

According to the preliminary trends, this market area has experienced some upward momentum with the increase of Median Price this month. Prices went up **19.70%** in September 2017 to \$95,700 versus the previous year at \$79,950.

Median Days on Market Shortens

The median number of **29.00** days that homes spent on the market before selling decreased by 28.50 days or **49.57%** in September 2017 compared to last year's same month at **57.50** DOM.

Sales Success for September 2017 is Positive

Overall, with Median Prices going up and Days on Market decreasing, the Listed versus Closed Ratio finished weak this month.

There were 125 New Listings in September 2017, up **16.82%** from last year at 107. Furthermore, there were 54 Closed Listings this month versus last year at 60, a **-10.00%** decrease.

Closed versus Listed trends yielded a **43.2%** ratio, down from last year's September 2017 at **56.1%**, a **22.96%** downswing. This will certainly create pressure on an increasing Month's Supply of Inventory (MSI) in the following months to come.
